Talk to an Inteltel Specialist

Business Voice

Cloud calling, SIP Trunking and enterprise voice integration.

Video Meetings

High-quality video meetings, screen sharing and conferencing.

Messaging

Team messaging, spaces and file sharing.

Team Collaboration

Work together anytime, anywhere.

Mobility

Consistent experience across desktop, mobile and devices.

Secure Communications

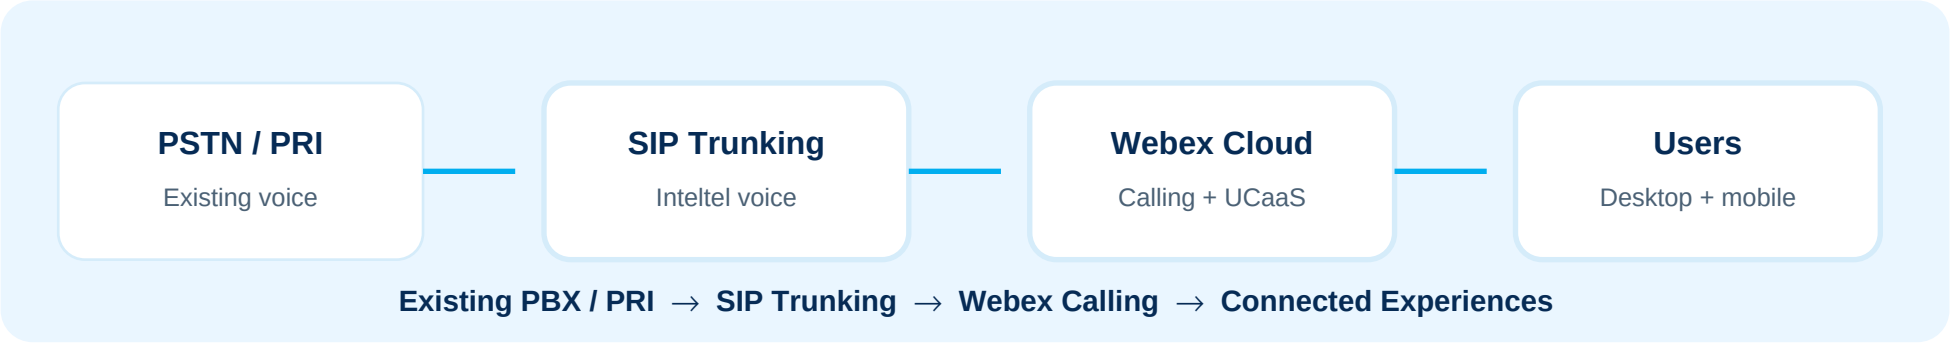

Enterprise-grade security, identity and access controls.

Headquarters | Branch Locations | Remote Workers | Contact Teams | Hospitality | Distributed Enterprises

INTEGRATED VOICE + WEBEX

Connect Calling and Collaboration

A clear path from enterprise voice and SIP connectivity to cloud collaboration.

Why Choose Inteltel?

- **End-to-End Expertise**
  Consulting, design, deployment, management, and support.
- **Network + UC Integration**
  Webex aligned with LAN/WLAN, SD-WAN, SASE, Internet, and cloud.
- **Voice Migration Support**
  Transition from PRI, PBX, SIP, and existing carrier environments.
- **Multi-Site Experience**
  Support headquarters, branches, hospitality, and remote users.
- **Flexible Architecture**
  Cloud, hybrid, and integrated deployment options.

What Sets Us Apart?

- **Integrated Network + UC**
  One coordinated communications and network strategy.
- **Security-First Architecture**
  Identity, secure access, segmentation, and Zero Trust principles.
- **Hybrid Voice Modernization**
  Support PRI, PBX, SIP Trunking, cloud calling, and UCaaS.
- **AI-Enabled Collaboration**
  Use supported Webex AI capabilities for smarter collaboration.
- **Managed Operations**
  Ongoing communications and infrastructure support.
